The standard practice with people promoting the official false narratives is to attach the messenger and not the message thereby proving the message is accurate. This has occurred numerous times concerning published articles. This article helps you identify who is telling the truth and who is not.

This is the standard practice of individuals who are incapable of challenging the truth because they have no facts to back up a false narrative they maybe attempting to push on a unsuspecting public. The resort to outright lying and attacking the individuals such as the authors on this site attempt to control the narrative. When that fails they resort censorship. You will never see them properly refute a article/message they target. This is called [Ad hominem](#). Attack the messenger, not the message.

Ad hominem (Latin for "to the man" or "to the person"[1]), short for argumentum ad hominem, is a fallacious argumentative strategy whereby genuine discussion of the topic at hand is avoided by instead attacking the character, motive, or other attribute of the person making the argument, or persons associated with the argument, rather than attacking the substance of the argument itself. Its original meaning was an argument "calculated to appeal to the person addressed more than to impartial reason"

A recent series of articles brought this clearly into view. It concerned the shooting of a pet by the Olean Police department under questionable conditions. We simply zoomed the video and amplified the audio to determine if the dog was indeed being aggressive. There were no indications of that occurring. It clearly showed the police did not appear to be worried about their safety either except setting up the kill zone to wack the dog. The dog did have a history of biting and the co-owner appeared to have been abusive towards it. When identifying who the attackers are really, discernment is a key. Something these things do not have.

This led to an all out attack in the website the writers and other individuals. The attackers could not refute a thing so the censorship campaign commenced. Here are the articles and the things involved. Three key players were identified. Here are their original names; [Dana Roth](#); [Harold Richard](#); [Mistopher Chran](#). **A number of them and/or their minions turned out to have fake facebook accounts and/or names;**

- [OPD Blows Away Family Pet June 15, 2018, Corrupt SPCA Involved](#)
 - No person listed that directly concerned the matter.
- [FOIL Filed on Dana Roth and Harold Richard Issue](#)
 - Don Blocher: The individual who took and posted the video.
 - [Dana Roth](#), Three time married mid thirty-ish, as so known as Dana Blocher, AKA/Dana Baker and AKA/Dana Pruesser. Related to Don Blocher. **She would come out and attack Don and anyone who supported the individual who originally posted the video showing the pet being shot. She would also attack an animal rights attorney out of Buffalo. This included but was not limited posting personal information of her target(s), which included address and other contact information in which one family with a minor child was harassed at there home soon after.** We wonder if she would like to have her personal information spread across the internet.
 - [Harold Richard](#): Individual who would come forward online to claim that he witnessed the whole three hour event. From start to finish, yet he did not have one picture or video to back anything up. We would discover that he lives in Wisconsin.
- [Strange Twists in the Dog Shooting Incident – Website Suspended – Back Online](#)
 - [Harold Richard](#): In a strange twist of events we discovered **he was related to Dana Roth also**. He admitted it on the Facebook page. So you have three individuals all related to each other,
 - [Bobby Nagrom](#): local Antifa fan/supporter and self professed crisis actor. His original real name was/is Bobby Morgan. Morgan/Nagrom was the first Ad Hominem attacker against CatCountyCorruption's Facbook page. Failed and/or refuse to identify any issues with the articles including the one he targeted.
 - [Mistopher Chran](#): Moderator on Olean Traffic and Safety Facebook page. Self proclaimed professional actor and possible corrupt confidential informant. CatCountyCorruption Facebook page went dark as soon as he was backed into a corner with questions.

Moderator(s) lost all access to facebook to comment/defend themselves. We would also discover that [Mistopher Chran](#) is a fake account/name. Actual name is [Christopher Maynard](#) with family history of law enforcement. Scary that an individual is a moderator on one of the larger social network site which comments always appear to get shut down when corrupt law enforcement is getting called out. Maynard would follow the same Ad Hominem pattern and practice as Morgan/Nagrom in attacking the writer(s) and commenters of the articles yet failed and/or refused to point out the inaccuracies. **Maynard would also admit he was a liar, a habitual one at that and that he conspired with Dana Roth to push a false narrative on the dog shooting incident. Maynard did admit to be one of the harassers who showed up at the persons house based on the information Dana Roth posted on him, only a fool would trust anything this lunatic says.** He forte is mixing lies with truth in order to push his agenda. This thing loves to manipulate and conspire against individuals who have been victimized by the system proving he is part of it.

- [J.E. Coleman](#): Alleged journalist out of Jackson County Texas who refused to provide any evidence she was one, such as actual articles she had published. Also runs animal rescue and rehabilitation locations in Jackson County Texas but would support Roth and Richards shooting of the dog. She is the "professional" brought in to give her "expert" opinion on the articles on this site concerning the dog shooting. The hit job if you will, on the articles, which of course she attempted and failed. Coleman would also delete postings after we pointing out her lack of knowledge on subjects related to the matter and the comment with contact information for the campaign to shut down the website. She would also be the one that help assist in the censorship campaign against the website and Facebook webpage which ended up causing the suspension of both.
- [Raven Hillyard](#): thing out of Buffalo New York, friend of Dana Roth. Hillyard is the originator of the campaign to shut down the website and/or Facebook webpage. Hope she understands the phrase "demand to preserve" Raven. I don't think your shape shifting is going to help you now.
- [Local Facebook Group Posts Status of CatCountyCorruption FB Page Suspension.](#)
 - [Mistopher Chran](#): AKA/[Christopher Maynard](#) reappears again. This one we detailed the fact that the facebook webpage got shut down as we were backing him into a corner and calling him out as a agent and/or servant for the corrupt local deep state. What was apparent is the shut down did not follow standard Facebook procedures. When facebook shuts down a page it provides the description of the community standard allegedly violated and give you the ability to file an appeal/review. In this matter none of that occurred.
 - [Stephanie Marshall](#): Another friend of Dana Roth who would spam the facebook website page with the typical Ad Hominem garbage. She was banned from the page but would later appear on the Olean Politics page and and engage in the same conduct.
 - [Cheryl Snyder](#): A real winner. Her favorite behavior on the Olean Politics forum is posting valueless memes that are designed to incite anger among opposing political and religious ideologies. Not on for unifying citizens, by enjoys dividing them. She would come in and support Marshall and engage in the usual slander against another individual claiming that the person had accused her of being a pedophile. We called her out on it by posting the proof and in the usual manner she played the victim card as she always does. She would delete that comment once she was called out on it. She constantly lies and always exposed for it.
