"ADA" Elizabeth Ensell is a prime example of why Cattaraugus County was, is, and most likely to be sued constantly at we the taxpayers expense. "ADA" is the acronym for "Assistant District Attorney" (and we use that term loosely when it applies to her). **Ensell lacks the mental and emotional capacity to carry out the functions of her employment and is a clear and present danger to the citizens, county and state.** This is the same type allegation was brought forth in a lawsuit against the county of Cattaraugus which was rife with conflicts of interests and other violations of law.

Ensell is part of the deeply embedded corrupt pattern and practice that exists across numerous years here in Cattaraugus County New York that is used to terrorize the people through the unlawful and illegal use of the powers granted to her position under the color of law. **In short Elizabeth Ensell is part of the**

Cattaraugus [RICO](#) establishment that preys upon the citizens and visitors of this county. She fits the profile perfectly. It appears that she had, or still has a relative, most likely her [father working for the same office](#) where she is now "employed".

There are numerous examples of her psychotic behavior. The first time evidence came forward was when a local citizen was attempting to press charges against an out of control "Sheriff's" Deputy by the name of [Bryan H Schwabenbauer](#). Schwabenbauer has a history of brutally and crimes that are being covered up by the District Attorney and Sheriff's Office as well as the county itself. Schwabenbauer brutally assaulted and rendered unconscious a local citizen when he was handcuffed to a chair. He was also denied medical attention after the assault.

The victim then contacted the Cattaraugus County District Attorneys Office and it was "ADA" Elizabeth Ensell who responded by stating ***"Its a civil matter not a criminal one"***. She would later state to the victim in court ***"It's alright for police officers to assault people"***. **She would also attempt to deny one of her RICO victims the right to defend himself in court when she claimed under penalties of perjury that he was not allowed to file any more motions in his 'case' pursuant to the ["Omnibus Motion Rule of Article 55 of the Criminal Procedure Law"](#), a law that does not exist anywhere on the planet. She is a harden criminal who will stop at nothing to deny her RICO victims their civil and constitutionally protected rights.**

In her latest round of supplying prima facie evidence that she is a psychopathic criminal just like her boss [Lori Rieman](#) and fellow "ADA" [William Preston Marshall](#). in a span of one week she would completely reverse her position concerning one of her RICO victims. This incident is documented fully. We also have recordings of her criminal conduct that proves exactly what we are stating here.
