

Strange Twists in the Dog Shooting Incident - Website Suspended - Back Online

The events and characters coming out of the woodwork on the Olean Police Department shooting of a dog have taken some very strange twists and turns dealing with the same family members and the site being suspended after a individuals formed a campaigning to shut it down. Very apparent they do not want this information out..... **Facebook shuts down post for this article in 30 minutes! No review... nothing! Getting to close to the truth... Update at bottom of page.**

So not only do you have the individual who took the video related to her. You have the individual who has been blasting social media as the witness to the whole event. **What is more interesting about Harold Richard is after he started to threaten one of the moderators we attempted to block him. Guess what, his profile does not appear in the blocking search results unlike all others when you block so you can block him. We wonder why that is?**

Harold Richard claimed to be there the full 3+hours yet he could not produce a single picture or video that backed up his claims, which happened to fit the official narrative perfectly. [To read the whole article that caused this site to be suspended click here.](#)

Harold was getting so pissed off he slipped up and admitted he was another family member of Dana Roth. He is claiming that they will be stalked if the FOIL is released. **This appears to be the narrative he as well as others appear to be setting up to give the appearance of legitimate cause to deny the FOILS because it would provide proof he does not exist and in fact is someone else...**

Public records are public records. If the individual does not want to be placed in a public record, they should not have made a statement. Further we had [FOILED the ADA Ensell hit a hospitalized](#) where [she ran over a women suffering from Cerebral Palsy in a clearly marked crosswalk](#) and the Olean Police Department covered it up. **If any public record documents should have not been released, it should have been those.** We don't even care if the street addresses are redacted. Harold would imply that somehow his family relative Dana Roth would have her personal contact information disclosed. It does not appear she was a witness, so why would they have any type of public records from her? Further, [the FOIL law allows for such redaction](#). **As you can see Harold and company are just attempting to set up a narrative so as to provide the appearance of legitimate cause to deny the FOILS. Now why would that be?**

So now you have the gentleman who took the video of the event, who was falsely accused of being a murderer in the social media by another family member, i.e. Dana Roth, which was false, and another family member who comes forward, i.e. Harold Richard claiming to have witnessed the whole thing which fits the official narrative perfectly. Are you following us folks?

Once the article was posted it came under attack almost immediately by Dana's groupies. One was a California Valley Girl and the other was a local individual who works in daycare. They immediately start with the standard brain washed Neuro-linguistic programming attack crying out "conspiracy theory" in an attempt to discredit the article.

The term conspiracy theory was created by the CIA in the 1960's to discredit any individual who dared question the official narrative pushed by the [operation mocking bird main stream media](#). concerning the Kennedy Assassination. Here are [some modern day examples of it occurring](#).

A great book on the subject is titled "Conspiracy Theory in America" authored by the highly respected [political scientist Lance deHaven-Smith](#), and published by University of Texas Press in 2013.

Because these things were only spamming the [CatCountyCorruption.com facebook page](#) with worthless memes and comments they were banned. But it didn't stop there. The local trolls would soon join in....

The first one to appear was none other then the voluptuous [Bobby Nagrom](#), who has been kicked off of

Cat County Corruption

~~Cattaraugus County, New York State Corruption & the Powers of the NYS Jury & Grand Jury System~~

more forums than Cattaraugus County has confidential informants. He would start with the same standard procedure that the other two had engaged in.

His first comment was just to attack the article and not bring any rational thoughts into the process. There is nothing new under the sun with these types of people.

They refuse to review and investigate anything, letting their emotions lead the way. Reality and truth be damned.

Bobby also support Antifa, which has been [designated a domestic terror organization](#) by the United States Government. Bobby has also claimed he is a crisis actor.... Gone are the days when you protested for what you believe and were willing to do what it takes to make change. These things want paid. What a joke.

However it was [Mistopher Chran](#) that would catch our attention. However that is a fictitious name. Christopher Mahn is his real name and he is one of the moderators on the Olean Area Traffic and Community Safety Alliance FaceBook page.

The posts always get shut down if the police and their apologist start losing the narrative. When issues like this article are brought up and the official narrative is winning again, that is usually when you see it shut down.

Mahn's family history includes law enforcement and originally he stated that he did recognize Roth and seeing her a few times at the county building. However once the thread on the [CatCountyCorruption.com facebook page](#) he recanted and stated it was not her. It must be noted he stated a few times, not once but a few.

Mahn would also admit to being a paid crisis actor then he would deny it. He would also state he lies all of the time. This is one individual not to be trusted.

J.E. Coleman (Momma Possum)

309 followers

Another interesting thing would appear out of Jackson County Texas, an alleged animal lover, one [J.E. Coleman](#) who appears to run two animal shelters/rehabilitation centers. She also went on the attack to discredit the article, which is strange because the article was about the appalling manner the way the dog was 'dispatched'. It must be noted that we have heard from a number of reliable sources that dog had bitten people five times and was abused by one of the owners... so why wasn't the dog taken away after the first...or second biting?

Colman would go on and attack the author of the article and claim that it was slanderous. Coming from a supposed 'journalist' we just all have to believe she should have the last say on the article, right? ... wrong.

We asked her to posts some of her articles which she refused to do so to prove who she said she was. She refused to do so. No proof whatsoever. She did not like it.

Cat County Corruption

~~Cattaraugus County, New York State Corruption & the Powers of the NYS Jury & Grand Jury System~~

Coleman and [Raven Hillyard](#), who also could not provide any proof of her statements started a campaign to shut down the website/FB Page. That's right, the loser journalist [J.E. Coleman](#) and alleged "animal lover" organized a campaign to shut down CatCountyCorruption.com....

[Coleman](#) would post the abuse contact for what she thought was the hosting service (can't even get that right). Then she would delete it. Gee.. who is trying to hide what.... We have the full size version of it [Coleman](#). She would also attempt to hide her alleged animal rescue shelters in Jackson County by removing them from her facebook profile. What is she so worried about?

[Raven Hillyard](#) would be overjoyed when the site went down. Tolerant liberals, so tolerant until you hurt their feeling.. then they want to throw the first amendment out the door.

Our articles have been used in court which verifies their authenticity and factually based statements. We doubt that [J.E. Coleman](#)'s have ever been used in court, if she is even a journalist.

You see how these things operate... when they lose the argument, they resort to attacking the foundation that holds it up or the person building it just like the corrupt DA's Office [tried to shut down the website and failed](#).

They appeared to have succeeded for a brief time in shutting down the website. However It was right back up. No different than the corrupt District Attorney Lori Rieman.

It appears that Coleman is not aware that we ran a website over two decades ago that exposed corruption in another state and when it was over four of the top judges in that state retired and the Attorney General running for the governor's seat lost the election and needed appointed to his next position.

[Coleman](#) **an alleged journalist and animal lover acted in the exact opposite manner one would expect from such a person. we wonder what people would think down in Jackson County Texas if they knew her true nature.** The dog bit people... that us a given... however we have seen animal rescue dogs that are trained to kill from drug houses in Buffalo be rehabilitated.

Coleman would also claim that Christopher Mahn AKA/Mistopher Chran, because he recanted his identification of Dana Roth that proved proof that she was not in court that day.... OK... one issue with that. Chran stated he had seen her a couple of times in, or outside the county building, not the city court, big difference. The city court and the county building is well over one mile away.

She would also attempt to claim that the witnesses that saw Roth at the court, their testimony was hearsay. We explained to her the difference between hearsay and first hand knowledge and she appeared to have promptly deleted that post which would have provided more proof of her ignorance of the two. However our response to her was still there and we always quote and tag the person we are responding to if we are doing a direct response.

UPDATE 6/23/2018

We published the article around 11:00 PM and the usual suspects shows up, were [Bobby Nagrom](#), [Christopher Mahn AKA/Mistopher Chran](#) and [Dana Roth](#). It started out as the usual discrediting strategy. Roth was crying and complaining about banning [J.E. Coleman](#). too bad. She was deleting her comments in order to coverup her tracks.
